## AN INSPECTION TRIP APPROPRIATORS' HEAD

An Important Source of the Valley's Water Supply.

On the invitation of Dwight B. Heard, Engineer Hill and B. A. Fowler, president of the Water Users' association, yesterday took a trip to the head of the Appropriators' Canal, then crossed the river, and passing through Tempe visited the Bartlett-Heard ranch and drove back to the city. They started early in the morning and got back about 2 o'clock.

Their trip up the canal was to the new head about a mile and a quarter east of the P. & E. bridge across the Salt river. They found here a number of men and teams engaged in flushing the brush dam across the river. There is now from twelve to fourteen hundred inches of water flowing into the Appropriators' canal and as the dam is made tighter it is believed the volume will become still greater. There is an excellent draw at the head and if the river holds up at all the Appropriators' canal may be expected to carry a good head for some time. The dam is across the north channel of the river, there being three at that point.

Speaking of the trip last evening Mr. Heard said the matter that particularly interests him, and which he called to the attention of Mr. Hill yesterday, is the underground water bearing gravel at that point. Mr. Heard is very anxious to have the government make a careful investigation of this subject at that place with a view of ultimately developing a pumping head. His own investigations have led Mr. Heard to believe that the same stratum of gravel which furnishes the pumped water supply south of Tempe comes very close to the surface in the vicinity of the Appropriators' head. He believes a large flow of water can be raised there by power from the Roosevelt dam at a minimum of expense.

Mr. Heard is very enthusiastic over the usefulness of the Appropriators' canal as a present institution for watering lands that presumably could get water in no other way at this time. However, he does not look upon it as in any way a substitute for the government's project. The Roosevelt dam is no more a necessity than the proposed diversion dam and both are necessary for the proper irrigation of the valley. But he believes that eventually a fine supply of pumped water may be developed in the vicinity of the Appropriators' head as an auxiliary resource.

On the south side yesterday a careful inspection was made of the Bartlett-Heard pumping plant, after which the party drove to the ranch headquarters and had dinner, before returning to Phoenix.

### NOTICE.

Notice is hereby given that subscriptions to the capital stock of the Appropriators' Canal Company will be received at par and 100 per cent premium or \$2.00 per share, after June 1st, 1906. By order of Board of Directors.

ADA IRVIN, Secretary.

A reward of Fifty dollars (\$50.00) will be paid by The Maricopa Canal Company for information sufficient to warrant the conviction of any water user found interfering or meddling with any headgates of this corporation through which it delivers water for irrigation. The Maricopa Canal Co., C. J. HALL, Attest: R. E. MINER, Secy.

A reward of Fifty dollars (\$50.00) will be paid by The Salt River Valley Canal Company for information sufficient to warrant the conviction of any water user found interfering or meddling with any headgates of this corporation, through which it delivers water for irrigation. The Salt River Valley Canal Co., LLOYD B. CHRISTY, Attest: R. E. MINER, Secy.

### NOTICE.

Beginning Friday, June 1, all the dry goods, clothing and shoe stores in Phoenix will close each Friday afternoon until the last Friday in September.

An extensive stock of foreign and domestic goods constantly on hand. Special attention given to Dress Suits. Satisfaction guaranteed.

## THE SWELLING VOLUME IN THE ARIZONA CANAL

Carrying More Water Than at Any Time Since the Dam Went Out.

R. H. Collins, who has charge of the construction operations at the head of the Extension canal, has made good. He said he would have 8,000 inches of water running in the Extension by Saturday night. Yesterday morning about 9 o'clock he telephoned to Phoenix that there was then running through the intake 8,100 inches of water and that at the same hour 7,100 inches was passing Evergreen. Presumably by this time all the laterals under the Arizona are full and the land is being soaked up as fast as water will soak it. Mr. Collins also phoned that the waste gates on the south side had been found in good condition and 15,000 inches could be run with but slight leakage or seepage.

This is surely the brightest Sunday morning the Arizona canal farmers have seen since last summer when their hopes were shattered by the wrecking of the old Arizona dam. It has taken days of anxious and patient waiting and days of hard rustling for money but the reward is here and the faithful are enjoying it. Too much credit cannot be given the farmers for their co-operation in this work, nor can too much be said in praise of the men who took hold of it when the farmers had practically reached the end of their resources and were in the balance between success and failure. Nor can words be found to adequately express the thanks for the community to Mr. Collins, whose good judgment and careful management has carried out the plans so successfully, so quickly and so economically.

## DIED SUDDENLY OF HEART DISEASE.

How frequently does a head line similar to the above greet us in the newspapers. The rush, push and strain tendency to lead up to valvular and other affections of the heart, attended by irregular action, palpitation, dizziness, smothered sensations and other distressing symptoms.

Three of the prominent ingredients of which Dr. Pierce's Golden Medical Discovery is made are recommended by some of the leading writers on Materia Medica for the cure of just such cases. Golden Medical Discovery is said by the UNITED STATES DISPENSARY, a standard authority, "to impart tone and increased power to the heart's action." Numerous other leading authorities represent Golden Seal as an unsurpassed tonic for the muscular system in general, and as the heart is almost wholly composed of muscular tissue, it naturally follows that it must be greatly strengthened by this superb, general tonic. But probably the most important ingredient of "Golden Medical Discovery" is so far as its marvelous cures of valvular and other affections of the heart are concerned, Stone root, or Collins' root, Prof. Wm. F. Faine, author of Faine's Epitome of Medicine, says of it:

"I not long since had a patient who was so much oppressed with valvular disease of the heart that his friends were obliged to carry him upstairs. He, however, gradually recovered under the influence of Collins' medicinal principle extracted from Stone root, and is now attending to his business. Therefore physicians know of no remedy for the removal of so distressing and so dangerous a trouble. With them it is all guess-work, and it fearfully warned the afflicted that death was near at hand. Collins' root unquestionably affords relief in such cases, and in most instances effects a cure."

Stone root is also recommended by Drs. Hale and Ellingwood, of Chicago, for valvular and other diseases of the heart. The latter says: "It is a heart tonic of direct and permanent influence."

"Golden Medical Discovery" not only cures serious heart affections, but is a most efficient general tonic and invigorator, strengthening the stomach, invigorating the liver, regulating the bowels and curing catarrhal affections in all parts of the system.

Dr. Pierce's Pills cure Constipation.

## AN ABLE SPECIALIST

Prememinently Successful, Thoroughly Reliable and Progressively Up-to-Date.

Dr. Hibbard's uniform success in curing chronic diseases has won him an extended reputation. Every case is carefully studied and requirements for special skillful treatment are thoroughly investigated. There is no guess work but absolute knowledge. The latest discoveries of science are applied in the curing of obstinate and complicated cases which have been thought incurable. DELAY IS DANGEROUS. Are you suffering from some chronic affection? Make no mistake. Restore your health and strength before it is too late. Get Expert Medical Treatment.

Dr. Hibbard, a specialist in private complaints treated with prompt and permanent results. The doctor is a graduate of Harvard, one of the best medical schools in the world. He has had an experience of over 20 years and has the complete confidence and full endorsement of the leading business men and prominent citizens of the southwest. Remove and External Growths Successfully. Without the Knife or Severe Measures.
